

# POEM OF THE WEEK

Believe it or not the world can be beautiful  
Through the hard times we may be educated  
And through the good times we have enjoyment  
Still to stay in tune someday we need to follow  
As we flow in the passion of living a good life  
Time moves forward to a state of harmony  
For this we can only hope in the degree of now  
Thoughts may take you to a place  
But it is not for nothing that we are learning  
Always there is greater and lesser things to know  
Be yourself teaching is the road you are on  
Sharing you will get further down the road map of time  
Life is the gift as dinking water on a hot day it must be
